Disasters like earthquakes are known as focusing events--sudden calamities that cause both citizens and policymakers to pay more attention to a public problem and often to press for solutions. This book, the first comprehensive analysis of these dramatic events, explains how and why some public disasters change political agendas and, ultimately, public policies.

Birkland concludes that different types of disasters result in different kinds of agenda politics. Public outrage over the highly visible damage caused by the Exxon Valdez oil spill, for example, ended a fourteen-year logjam holding back Congressional legislation to regulate oil spill cleanups. On the other hand, the intangible effects of Three Mile Island had less concrete results in a political arena that was already highly polarized.
