impacts practice, allowing prospective teachers to assume the dual role of both teacher and student as they enter the discipline of Writing Studies and become familiar with some of its critical conversations. Now in its third edition, the volume offers up-to-date scholarship and a deeper focus on diversity, both in the classroom and in relation to Writing Studies and literacy more broadly.

In mathematics, specifically category theory, a functor is a map between categories. Functors were first considered in algebraic topology, where algebraic objects (such as the fundamental group) are associated to topological spaces, and maps between these algebraic objects are associated to continuous maps between spaces. Nowadays, functors are used throughout modern mathematics to relate ...
