world', it stacks up poorly against European healthcare systems. For all our apparently soaring exam grades, our children significantly underperform their future competitors in China, Korea and elsewhere. And for all our hand-wringing about abolishing poverty, our huge welfare system actually damages many of the poor it's supposed to help. Drawing on extensive research and up-to-the-minute reporting, *Burning Our Money* comprehensively debunks the myth that more public spending means better public services, and shows how we can - and must - get more for less.
