In this first volume of the collected talks and essays of Paramahansa Yogananda, readers will journey through some little-known and seldom-explained aspects of meditation, life after death, healing, and the power of the mind.

"For all who have ever sought to understand the enigmas of life, for those who have held within their hearts an uncertain hope about the reality of God, and for seekers who have already turned toward the Supreme in their quest, this anthology of talks by the author of *Autobiography of a Yogi* offers illuminating insights and encouragement. In its pages, Paramahansa Yogananda explores little-known and rarely explained aspects of such subjects as meditation, life after death, health and healing, the unlimited powers of the human mind, the equality of man and woman, and the interrelatedness of all life. Topics include: \* Making Religion Scientific

For all who have ever sought to understand the enigmas of life, for those who have held within their hearts an uncertain hope about the reality of God, and for seekers who have already turned toward the Supreme in their quest, this anthology of talks by the author of *Autobiography of a Yogi* offers illuminating insights and encouragement. In its pages, Paramahansa Yogananda explores little-known and rarely explained aspects of such subjects as meditation, life after death, health and healing, the unlimited powers of the human mind, the equality of man and woman, and the interrelatedness of all life.

This collection debates the path and purpose of life. The author discusses such topics as whether it is possible to hasten human evolution, the possibility of a scientific method to ensure a pathway to life's highest fulfillments and what guidelines help mediators find genuine spiritual progress.

We live in an age of fibreglass but we're still looking for the sacred values of life. In this second anthology of writings and talks, Yogananda addresses the deepest needs of the human heart.

Religion or faith in fundamental principles is the foundation upon which the edifice of reasoning or science is built upon. While it is a religion that binds us into courses of action consistent with those fundamental principles, it is a science that enables us to stay clear of inconsistent systems of guiding principles and to practically attain the goals posited by our principles. *The Science of Religion* by Paramahansa Yogananda arrives by analysis at inner happiness or bliss as the goal that binds all men.

For all who have ever sought to understand the enigmas of life, for those who have held within their hearts an uncertain hope about the reality of God, and for seekers who have already turned toward the Supreme in their quest, this anthology of talks by the author of *Autobiography of a Yogi* offers illuminating insights and encouragement. In its pages, Paramahansa Yogananda explores little-known and rarely explained aspects of such subjects as meditation, life after death, health and healing, the unlimited powers of the human mind, the equality of man and woman, and the interrelatedness of all life. Topics include: \* Making Religion Scientific \* Will Jesus Reincarnate? \* Three Paths to Cosmic Consciousness \* The Dream Nature of the World

Will Jesus Reincarnate? \* Three Paths to Cosmic Consciousness \* The Dream Nature of the World

This collection of informal counsel provides intimate glimpses into the mind of one of the great spiritual figures of our time. In answering the questions of those who turned to him for guidance, Yogananda expressed himself with candor, spontaneity, and insight. He knew when to relieve a somber situation with a flash of wit, and was able to transform philosophical truths into simple precepts for everyday living.
