Social and Cultural Anthropology

Social and cultural anthropology. A distinctive “social” or “cultural” anthropology emerged in the 1920s. It was associated with the social sciences and linguistics, rather than with human biology and archaeology. In Britain in particular social anthropologists came to regard themselves as comparative sociologists, but the assumption persisted that anthropologists were primarily concerned with “primitive” peoples, and in practice evolutionary ways of thinking may often be ...

Cultural anthropology is a branch of anthropology focused on the study of cultural variation among humans. It is in contrast to social anthropology, which perceives cultural variation as a subset of a posited anthropological constant. The umbrella term sociocultural anthropology includes both cultural and social anthropology traditions.
