The approach used by Hoyle, Schaefer, and Doupnik in the new edition allows students to think critically about accounting, just as they will do while preparing for the CPA exam and in their future careers. With this text, students gain a well-balanced appreciation of the Accounting profession. As Hoyle 12e introduces them to the field's many aspects, it often focuses on past controversies and present resolutions. The text continues to show the development of financial reporting as a product of intense and considered debate that continues today and into the future. The writing style of the eleven previous editions has been highly praised. Students easily comprehend chapter concepts because of the conversational tone used throughout the book. The authors have made every effort to ensure that the writing style remains engaging, lively, and consistent which has made this text the market leading text in the Advanced Accounting market. The 12th edition includes an increased integration of IFRS as well as updated accounting standards.

Fundamentals of Advanced Accounting, 1e, by Hoyle/Schaefer/Doupnik is ideal for those schools wanting to cover 12 chapters in their advanced Accounting course. Typically, this course covers 5-6 consolidations chapters, two foreign currency chapters, two partnership chapters, and 2-3 governmental and not-for-profit chapters. Fundamentals of Advanced Accounting will boast all the great talents of the Advanced Accounting, 7e, by Hoyle/Schaefer/Doupnik, including the incorporation of the latest FASB pronouncements, the integration of skill preparation for the new CPA exam (research, analysis, judgment, and communication), and finally - great authorship.

Advanced Accounting delivers an in-depth, comprehensive introduction to advanced accounting theory and application, using actual business examples and relevant news stories to demonstrate how core principles translate into real-world business scenarios. Clearly defined and logically organized Learning Objectives aid in student comprehension, while highlighted Related Concepts illustrate how individual concepts fit into the larger picture. Short answer questions throughout the chapter allow students to test their knowledge before reaching the more in-depth end-of-chapter questions, promoting a deeper understanding of both technical and conceptual aspects of the field. Written by active accounting researchers, this text brings clarity and flexibility to the central ideas underlying business combinations, consolidated financial statements, foreign currency transactions, partnerships, non-profit accounting and more. This new Seventh Edition has been updated to reflect the latest changes to FASB and GASB standards, allowing students to build a skill set based on up-to-date practices. With a student-oriented pedagogy designed to enhance comprehension, promote engagement, and build real-world understanding, this user-friendly book provides an essential foundation in current advanced accounting methods and standards.

Taxation 2020 introduces all relevant tax topic covered in the CPA exam to undergraduate or graduate students in one-semester introductory tax courses. Offering a decision-making approach to the material, this comprehensive yet accessible text maintains the appropriate balance between concepts and specifics. Twelve concise, student-friendly chapters supply sufficient details to build upon for future careers in taxation and consulting while avoiding the minutiae rarely seen in everyday practice. The new tenth edition covers basic taxation of individuals, corporations, S corporations, partnerships, and fiduciary entities. An emphasis on tax planning helps students understand the effect taxation has on decisions for both individuals and entities. Thoroughly updated for the coming tax year, this textbook covers fundamental areas of taxation and its environment including business and property concepts, property dispositions, business and wealth taxation, and income, expenses, and individual taxes. A wealth of instructor resources includes two solutions manuals—one of which provides solutions to the Research and Tax Return problems—an extensive test bank, and PowerPoint slides. Engaging, highly-readable text enables instructors to assign students out-of-class readings and spend classroom time on more complex topics.

This document contains a record of the oral and written testimony of witnesses at a Chicago (Illinois) Congressional hearing on the Job Opportunities and Basic Skills (JOBS) Training Program. Witnesses at the hearing included officials from various Illinois programs funded by the JOBS program, government officials, and unemployed persons. They testified that the high state match of funds and services works against the successful implementation of the JOBS program and the requirements of the Family Support Act of 1988 are burdensome. Witnesses noted that in times of recession, the states simply do not have enough money to set up the matches for federal funds. Witnesses also stated that the JOBS program's requirement that participants engage in 20 hours per week of education is unrealistic because most literacy programs or postsecondary programs require less than 20 hours of classroom work but presume home study time. The 20-hour rule works against participants improving their skills. Proposed changes in the JOBS legislation to lessen the amount of state money required and to make program requirements more flexible are included in these proceedings. (KC)
